Notes to Condensed Interim Consolidated Financial Statements June 30, 2024 and 2023 (Expressed in Canadian Dollars) (Unaudited)

1. Nature of operations and going concern

AbraSilver Resource Corp. (formerly AbraPlata Resource Corp.) (the "Company" or "AbraSilver") was incorporated on August 31, 1993 under the Alberta Business Corporations Act. On September 30, 2015, the Company's incorporation jurisdiction was moved to British Columbia. The Company's registered office is located at Suite 550, 220 Bay Street, Toronto, Ontario, M5J 2W4.

As at June 30, 2024, the Company had a working capital of \$20,361,748 (December 31, 2023 – \$4,501,658), has never had profitable operations, and had an accumulated deficit at June 30, 2024 of \$85,779,465 and expects to continue to incur losses in the development of its business. These factors create material uncertainties that may casts significant doubt on the Company's ability to continue as a going concern without securing additional future sources of financing. These unaudited condensed interim consolidated financial statements have been prepared on the basis that the Company will continue as a going concern and do not reflect the adjustments, if any, that may be required to the carrying values of assets and liabilities and the reported expenses and statement of financial position classifications that would be necessary if the Company were unable to realize its assets and discharge its liabilities as a going concern in the normal course of operations. Management plans to secure necessary financing, as and when needed, through a combination of the issue of new equity or debt instruments and the entering of joint venture or option arrangements. Nevertheless, there is no assurance that these initiatives will be successful.

On March 4, 2021, the Company changed its name from "AbraPlata Resource Corp." to "AbraSilver Resource Corp.". The common shares of the Company began trading under the Company's new name on TSX Venture Exchange on March 9, 2021.

On May 17, 2024, the Company announced that it would implement the consolidation of its common shares in the capital of the Company on the basis of five (5) pre-consolidation shares for every one (1) post consolidation share. The consolidation took effect at market open on May 22, 2024. Accordingly, the number of shares, warrants, stock options and RSUs and the exercise prices in these unaudited condensed interim consolidated financial statements have been restated to reflect the share consolidation.

The Company's business may be affected by changes in political and market conditions, such as interest rates, availability of credit, inflation rates, changes in laws, and national and international circumstances. Recent geopolitical events, and potential economic global challenges such as the risk of higher inflation and energy crises, may create further uncertainty and risk with respect to the prospects of the Company's business.

2. Basis of preparation

Statement of compliance

These unaudited condensed interim consolidated financial statements, including comparatives, have been prepared in accordance with International Accounting Standard ("IAS") 34 'Interim Financial Reporting' ("IAS 34") using accounting policies consistent with IFRS Accounting Standards ("IFRS") issued by the International Accounting Standards Board ("IASB") and Interpretations of the International Financial Reporting Interpretations Committee ("IFRIC"). The accounting policies and methods of computation applied by the Company in these unaudited condensed interim consolidated financial statements are the same as those applied in the Company's annual consolidated financial statements for the year ended December 31, 2023 other than as discussed below.

These unaudited condensed interim consolidated financial statements were authorized for issue by the Board of Directors on August 28, 2024.

2. Basis of preparation (continued)

Future accounting standards and pronouncements

Certain new accounting standards and interpretations have been published that are either applicable in the current period or not mandatory for the current period.

New accounting policies adopted

Cashless exercise and net settlement of stock options

Our amended stock options plan include provisions that allow for the "net exercise" of stock options by plan participants at the Company's discretion. In a net exercise, any required payroll taxes, federal withholding taxes and exercise price of the shares due from the option holder can be paid for by having the option holder tender back to the Company a number of shares at fair value equal to the amounts due. In the case of cashless exercises of stock options, the amounts transferred from the reserve for share based payment to share capital are based on the ratio of shares actually issued to the number of stock options originally granted. The remainder is transferred to deficit. In the case of net exercise of stock options for withholding and related taxes, the increase in the value of the equity instrument relative to the historical amounts vested and recorded within share based payment reserve is recorded to deficit.

Option payments received

Proceeds received from option payments are credited to the carrying value of the mineral property interest, with any excess recorded as other income.

Amendments to IAS 1

The Company has assessed Amendments to IAS 1 - Classification of Liabilities as Current or Non-Current, and determined it does not have a material impact on the Company in the current reporting period.

Future accounting standards

In addition, Amendment to IAS 21: Lack of Exchangeability has been published by IASB to specify how to assess whether a currency is exchangeable or not and how to determine the exchange rate when it is not, which is effective as of January 1, 2025. IFRS 18 Presentation and Disclosure in Financial Statements was issued by the IASB in April 2024, with mandatory application of the standard in annual reporting periods beginning on or after January 1, 2027. The Company is still assessing the impact of the implementation of these amendments. No standards have been early adopted in the current period.

3. Financial instruments

(a) Fair value estimation

The fair value of financial instruments is determined by valuation methods depending on hierarchy levels as defined below:

- 1. Level 1 of the fair value hierarchy includes unadjusted quoted prices in active markets for identical assets or liabilities;
- 2. Level 2 of the hierarchy includes inputs that are observable for the asset or liability, either directly or indirectly; and
- 3. Level 3 includes inputs for the asset or liability that are not based on observable market data.

The Company's marketable securities are valued using level 1 fair value hierarchy. At June 30, 2024 and December 31, 2023, the carrying value was \$nil. The carrying values of other financial instruments maturing in the short term approximates their fair values.

3. Financial instruments (continued)

(b) Financial risks

The Company may be exposed to risks of varying degrees of significance which could affect its ability to achieve its strategic objectives. The Company manages risks to minimize potential losses. The main objective of the Company's risk management process is to ensure that the risks are properly identified and that the capital base is adequate in relation to those risks. The Company's risk exposure and the impact on the Company's financial instruments are summarized below:

Credit risk

Credit risk is the risk of potential loss to the Company if the counterparty to a financial instrument fails to meet its contractual obligations.

The Company is exposed to credit risk with respect to its cash and cash equivalents, receivables and term deposits. The Company's maximum exposure to credit risk is their carrying amounts disclosed in the unaudited condensed interim consolidated statement of financial position. Credit risk associated with cash and cash equivalents and term deposits are minimized by placing these instruments with major Canadian financial institutions with strong investment-grade ratings as determined by a primary ratings agency. Credit risk associated with receivables is minimal as the majority of the balance was collected subsequent to June 30, 2024.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due.

At June 30, 2024, the Company had a cash and cash equivalents balance of \$19,670,157 to settle current liabilities of \$861,962.

The Company intends to finance future requirements from share issuances, the exercise of options and/or warrants, debt or other sources. There can be no certainty of the Company's ability to raise additional financing through these means.

The Company has the following contractual cash flow requirements as at June 30, 2024:

	Years ended December 31,			
	,	2024	2025	
Consideration payable (US\$7,000,000)	\$	-	\$ 9,580,900	
Accounts payable and accrued liabilities	8	61,962		
Total commitments	\$ 8	61,962	\$ 9,580,900	

Notes to Condensed Interim Consolidated Financial Statements June 30, 2024 and 2023 (Expressed in Canadian Dollars) (Unaudited)

3. Financial instruments (continued)

(b) Financial risks (continued)

Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate due to changes in market factors. Market risk comprises three types of risk; price risk, interest rate risk and currency risk.

Price risk

Price risk is the risk that the fair value of future cash flows of the Company's financial instruments will fluctuate because of changes in market prices. The Company is not exposed to price risks.

Interest rate risk

Interest rate risk is the risk that the fair values and future cash flows of the Company will fluctuate because of changes in market interest rates. The Company is exposed to interest rate risk to the extent that the cash and cash equivalents and term deposits, if any, maintained at financial institutions is subject to a floating rate of interest. The interest rate risk on cash and cash equivalents and term deposits is not considered significant.

Currency risk

Currency risk is the risk that the fair values or future cash flows of the Company's financial instruments will fluctuate because of changes in foreign currency exchange rates. The Company is exposed to currency risk through financial assets and liabilities denominated in currencies other than the Canadian dollar, the Company's presentation currency. The Company's financial instruments denominated in currencies that are not the Canadian dollar as at June 30, 2024 are as follows:

Cost	Argentine peso	Chilean peso	US\$	C\$ equivalent
	545 407 000	100 015 710	7.77 0.400	44.000.407
Cash and cash equivalents	515,167,306	186,245,743	7,778,402	11,690,497
Accounts payable and accrued liabilities	209,494,503	695,998	158,239	533,073
Consideration payable	-	-	6,015,130	8,232,909

The Company's sensitivity analysis suggests that a 10% depreciation or appreciation of the foreign currencies against the Canadian dollar would have resulted in an approximate \$292,000 decrease or increase in the Company's total comprehensive income or loss.

As at June 30, 2024, US dollar amounts have been translated at a rate of C\$1.3687 per US dollar; Argentine peso amounts have been translated at C\$0.0011 per Argentine peso and Chilean peso amounts have been translated at C\$0.00144 per Chilean peso.

4. Capital management

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to pursue the development and exploration of its mineral properties and to maintain a flexible capital structure, which optimizes the costs of capital to an acceptable risk. The Company considers its capital including shareholders' equity.

The Company depends on external financing to fund its activities and there can be no guarantee that external financing will be available at terms acceptable to the Company. Additional funding will be required by the Company to complete its strategic objectives and continue as a going concern. There is no certainty that additional financing at terms that are acceptable to the Company will be available. The capital structure of the Company currently consists of common shares. The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may issue new debt, new shares or warrants. The Company is not subject to externally restricted capital requirements.

Management reviews its capital management approach on a regular basis. There were no changes in the Company's approach to capital management.

5. Mineral property interests

Through the Company's wholly-owned subsidiaries, the Company controls exploration projects in Argentina classified by the Company into the Diablillos Project, La Coipita Project and in Chile classified into the Arcas project. All acquisition costs and option payments related to these exploration projects are capitalized as mineral interests and are incurred in US dollars and translated to Canadian dollars, the presentation currency for the Company.

(a) Diablillos project

(1) On November 1, 2016, the Company closed a share purchase agreement dated August 23, 2016, as amended and restated on March 21, 2017, and further amended on September 11, 2019, with SSR Mining Inc. ("SSRM") and Fitzcarraldo Ventures Inc. (the "Diablillos SPA") pursuant to which Huayra acquired from SSRM all of the issued and outstanding shares of Pacific Rim Mining Corporation Argentina S.A., ABP Global Inc. (BVI) and ABP Diablillos Inc. (BVI) (together, the "SSRM subsidiaries"). Through the acquisition of the SSRM subsidiaries, the Company acquired certain exploration projects in Salta and Chubut Provinces, Argentina (the "Diablillos Project" and the "Aguas Perdidas Project").

Cash consideration payable to SSRM consists of the following:

- 1. US\$300,000 on closing; this amount to be increased by an amount equal to the US dollar equivalent of the amount of Argentine pesos deposited in entity purchased by the Company (paid);
- 2. US\$300,000 on or before February 15, 2017 (as amended) (paid);
- 3. US\$500,000 on 180th day after closing (paid);
- 4. US\$50,000 on or before January 12, 2018 (as amended) (paid);
- 5. \$ 200,000 to be paid at the closing date of the Arrangement with Aethon (paid);
- 6. US\$5,000,000 to be paid on the earlier of (paid):
 - o the date on which a Diablillos Feasibility Study in respect of all or any part of the Diablillos Concessions has been obtained:
 - o July 31, 2023; and
 - o 90 days after demand by SSRM for payment if (a) AbraSilver's market capitalization exceeds \$100,000,000 for 20 consecutive trading days (on the primary stock exchange on which such entity's shares are traded) or (b) after November 1, 2020, the spot price of silver (based on the London Bullion Market Association (LBMA) Silver Price as published by the LBMA on its website (or should that quotation cease, another similar quotation acceptable to the parties acting reasonably) (the "Benchmark") exceeds \$25 per ounce for 20 consecutive trading days on the Benchmark;

Notes to Condensed Interim Consolidated Financial Statements June 30, 2024 and 2023 (Expressed in Canadian Dollars) (Unaudited)

5. Mineral property interests (continued)

- (a) Diablillos project (continued)
- (1) (continued)
- 7. US\$7,000,000 to be paid on the earlier of (note 7):
 - o the date on which Commercial Production occurs in respect of all or any part of the Diablillos Concessions (not reached yet); and
 - o July 31, 2025.

On September 2, 2020 AbraSilver's market capitalization exceeded \$100,000,000 for twenty (20) consecutive trading days on the TSX-V for the period from and after August 6, 2020 to and including September 2, 2020. On the same day SSRM requested the US\$ 5,000,000 to be paid within 90 days. During the year ended December 31, 2020, the Company paid \$6,533,500 (US\$5,000,000) as an addition to the Diablillos project.

Equity consideration consists of 2,258,922 Class B common shares of the Company which automatically converted into a number of Huayra Class A Shares that, upon the completion of the RTO, resulted in SSRM holding common shares of the Company representing 19.9% of the Company's then outstanding common shares. The Diablillos SPA provided SSRM an anti-dilution right to maintain 19.9% equity interest in the capital of the Company until the Company completes a qualified financing of a minimum of US\$5,000,000. During the year ended December 31, 2018 the Company completed a qualified financing and is no longer obligated to maintain SSRM's free carried equity interest. As consideration for SSRM's agreement to amend the Share Purchase Agreement, in 2019 the Company issued an additional 4.83 million common shares of the Company plus payment of \$200,000.

The royalty consideration payable to SSRM consists of a 1% net smelter returns royalty. SSRM is entitled to receive advance royalty payments totaling of US\$250,000 on November 1, 2017 (paid).

These advance royalty payments will be deducted and set off against the first US\$250,000 of net smelter returns royalty payments otherwise payable in respect of the Diablillos Project. As security for the above obligations the Company has pledged to SSRM all the shares the Company acquired in the two entities which hold interest to the Diablillos Project and the Aguas Perdidas Project.

The US\$7,000,000 balance will be paid on earlier of the date on which commercial production occurs in respect of all or any part of the Diablillos Project and July 31, 2025. The unpaid cash consideration under the Diablillos SPA is secured against a mortgage, pledge and assignment agreement in favour of EMX. If the Company fails to pay the unpaid cash consideration under the Diablillos SPA, when due, EMX (the assignee of SSRM's rights under the Diablillos SPA) will be permitted to enforce against the Company's assets related to the Diablillos Project.

Notes to Condensed Interim Consolidated Financial Statements June 30, 2024 and 2023 (Expressed in Canadian Dollars) (Unaudited)

5. Mineral property interests (continued)

- (a) Diablillos project (continued)
- (2) On August 30, 2017 the Company signed a share purchase agreement, which was amended September 6, 2019, to acquire all of the issued and outstanding shares of Minera Cerro Bayo S.A. ("Cerro Bayo"), a privately held Argentine company. Cerro Bayo owns certain mineral rights that, as a result of a long-standing border dispute between two neighboring provinces in northwestern Argentina, overlap and potentially conflict with the Company's mineral rights to its Diablillos Ag-Au project. The acquisition of the potentially conflicting mineral rights through the acquisition of Cerro Bayo means that the Company will retain its title to the Diablillos Ag-Au project regardless of the ultimate outcome of the provincial border dispute.

Cash and equity consideration payable under the agreement is as follows:

- 1. US\$225,000 upon closing (paid);
- 2. US\$175,000 on or before February 28, 2018 (paid);
- 3. US\$15,000 upon signing of the September 6, 2019, amendment (paid);
- 4. US\$350,000 and 300,000 common shares on or before November 30, 2019 (paid and issued);
- 5. US\$65,000 on or before April 30, 2020 (paid);
- 6. US\$65,000 and 200,000 common shares on or before October 31, 2020 (paid and issued);
- 7. US\$65,000 on or before April 30, 2021(paid);
- 8. US\$65,000 on or before October 31, 2021 (paid);
- 9. US\$65,000 on or before April 30, 2022 (paid);
- 10. US\$65,000 on or before October 31, 2022 (paid);
- 11. US\$1,000,000 on or before July 31, 2023 (paid);
- 12. US\$1,170,000 on or before July 31, 2025.

The unpaid cash consideration is secured against a stock pledge and trust agreement in favor of the seller of the equity interest of Cerro Bayo. Any unpaid cash consideration will become a liability of the Company only if the Company does not terminate the Diablillos SPA when the payments are due. As such, the amounts not due as of December 31, 2023 and June 30, 2024 have not been recognized as a liability. The Company has disclosed the unpaid cash consideration as commitments in note 12.

(b) La Coipita Project

10. Use of marketable securities

From time to time, the Company may acquire and transfer marketable securities to facilitate intragroup funding transfers between the Canadian parent and its Argentine operating subsidiaries. The Company does not acquire marketable securities or engage in these transactions for speculative purposes. In this regard, under this strategy, the Company generally uses marketable securities of large and well established companies, with high trading volumes and low volatility. Nonetheless, as the process to acquire, transfer and ultimately sell the marketable securities occurs over several days, some fluctuations are unavoidable. As the marketable securities are acquired with the intention of a near term sale, they are considered financial instruments that are held for trading, all changes in the fair value of the instruments, between acquisition and disposition, are recognized through profit or loss. The subsequent disposition of these marketable securities in exchange for Argentine pesos gave rise to a gain as the amount received in Argentine peso exceeds the amount of Argentine peso the Company would have received from a direct foreign currency exchange. As a result of having utilized this mechanism for intragroup funding for the three and six months ended June 30, 2024, the Company realized a gain of \$849,033 and \$1,555,667, respectively (three and six months ended June 30, 2023 - \$4,771,220 and \$8,057,177, respectively) from the favorable foreign currency impact.

11. Segmented information

During the three and six months ended June 30, 2024, the Company has four (three and six months ended June 30, 2023 – four) operating segments.

The Company's reportable segments are based on the geographic region for the Company's operations and include Argentina and Chile. The gains on sale of marketable securities are allocated to Argentina, as they are the result of funding provided to the Company's Argentine subsidiaries.
